

Job Title: Python Backend Developer (Fresher)

Location:

EpicMinds IT Pvt. Ltd.

#19, 2nd Floor, 1st Main Rd, 3rd Block, 3rd Stage,
Basaveshwar Nagar, Bengaluru, Karnataka – 560079

Experience: 0–6 months (Freshers)

Employment Type: Full-Time

About the Role

We are looking for a passionate and motivated **Python Backend Developer (Fresher)** to join our development team. The ideal candidate should have strong fundamentals in Python, backend API development using FastAPI, database handling, and a basic understanding of Generative AI concepts and prompt engineering.

This role is ideal for recent graduates who are eager to build scalable backend systems and work on AI-powered applications.

Key Responsibilities

- Develop and maintain RESTful APIs using **FastAPI**.
- Design, implement, and optimize backend services and database schemas.
- Work with **SQL databases** for data storage, retrieval, and management.
- Integrate AI/LLM-based features using prompt engineering techniques.
- Collaborate with frontend developers and other team members to deliver complete solutions.
- Write clean, efficient, and well-documented code.
- Participate in testing, debugging, and performance optimization.

Required Skills

- Strong knowledge of **Python programming**.
- Experience or academic project work with **FastAPI** for API development.
- Good understanding of **SQL databases** (MySQL/PostgreSQL or similar).
- Basic understanding of **Generative AI concepts** and **Prompt Engineering**.
- Knowledge of REST APIs, JSON, and HTTP methods.
- Understanding of version control tools like Git.

Good to Have

- Knowledge of **MongoDB** or other NoSQL databases.
- Familiarity with Docker or deployment basics.
- Understanding of AI model integration and API consumption.

Eligibility Criteria

- Any Bachelor's Degree.
- Strong problem-solving skills.
- Good communication and teamwork abilities.
- Eagerness to learn and work in a fast-paced environment.
